Allowable Subject Matter

Claims 1-68 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1-67 were rejected under 35 USC 103(a) in the previous office action and the rejection is withdrawn in light of applicant's argument upon granting the benefit of priority in the instant application in the paper dated on 01/27/2006.

Claims 1-68 were rejected under Obvious-type Double patenting in the previous office action and the Terminal Disclaimer were approved over US 6,436,953 and US 6,696,460.

The closest prior art is Wolfgang-Alexander et al. of WO 96/03404. The prior art of record teaches that the similar compound having two fused rings instead of the three fused rings in the instant application having the same activity.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "comments on Statement of Reasons for Allowance."
